

# USING GIS MAPPING SYSTEM

(accessible @ [www.nashuanh.gov/assessing](http://www.nashuanh.gov/assessing))

## TO VIEW A TAX MAP (ALSO KNOWN AS ASSESSORS MAP)

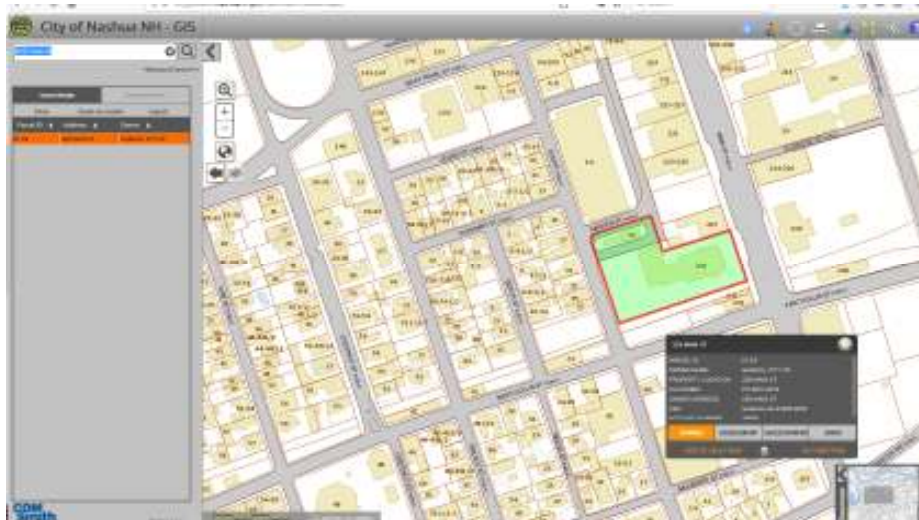

Go to above website and to the left of your screen select “GIS Maps”. Click on the link in the text in the middle of the page “[GIS online resource](#)”. A text box will appear which will require the user to click ‘OK’ after reading the disclaimer in the text box. You are now in the GIS Mapping System.

-----

In the upper left of your screen, enter the last name of the owner, the address of the property you wish to view or the Parcel ID.

Click on the search icon immediately to the right or hit the enter key. Select the subject property in the window just below that under the “Search Results” tab and the lot and a grey text box with data specific to that lot can be viewed in the larger window to the right. If subject is a larger lot, it may be necessary to zoom in to have the dimensions or other layers appear. To zoom in or zoom out, click on + or - at top left of your screen in the same window or use the ball or wheel on mouse. There are icons at the top right of your screen which can access other useful information. Hover your cursor over each icon to show the purpose of each icon

In the lower right, the property can be viewed using the ‘Street Map’, ‘Topo Map’ or aerial imagery taken in past years by selecting the arrow facing left to expand that small window. The grey text box has 4 tabs on the bottom: ‘OWNER’ gives information on the owner of the property, ‘ASSESSMENT’ is information relating to the assessment, ‘SALES/SEWERS’ has information on the most recent sale of the property and the date and permit # for the sewer connection. The ‘LINKS’ tab has links to aerial imagery of the property as well as the assessment data when the property’s account # is clicked on.
